1	The industry is facing disruption due to virtualization academic inputs on SDN/NFV will make the student employable. Economic impact of taxation on ICT industry should be discussed. MBA students do not have adequate inputs on Pre-Sales function of the ICT industry. I feel there should be a course to provide inputs to students. Impact of Digital Technologies on ICT industry would be very relevant for the students as they face the job market.	We have included SDN/NFV in the course titled "Services and Technology Trends in Telecom" We have also included courses on Digital Technologies in the curriculum
2	Digital Forensics is an upcoming area and so SIDTM should introduce a course.	We have included "Digital Forensics" in SEM-3.
