

## Detailed report for each program

### Theme : Skill Development

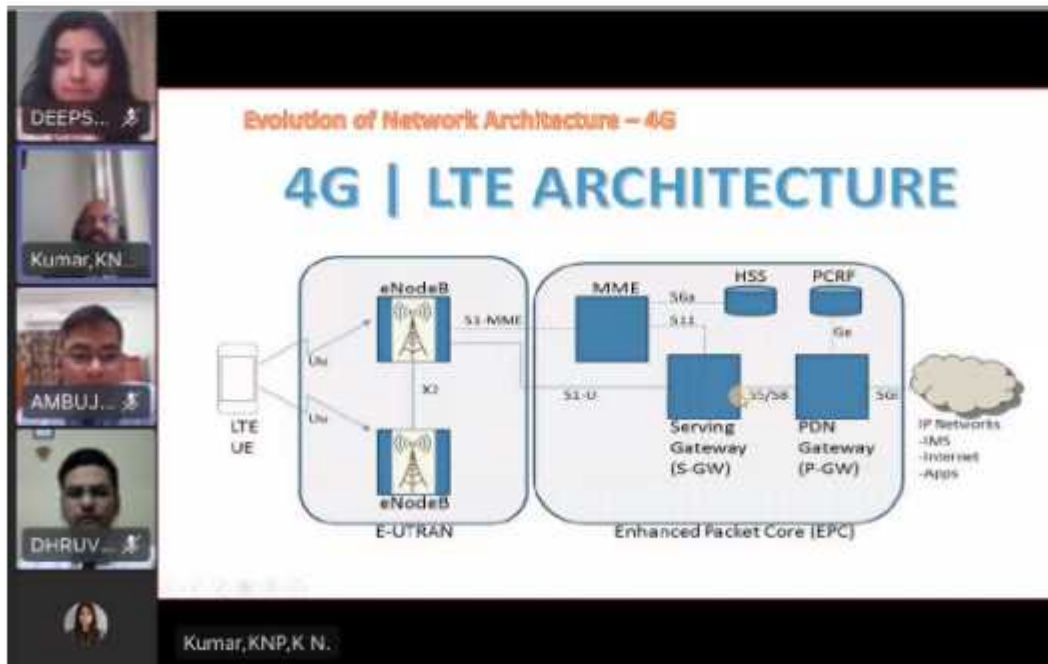

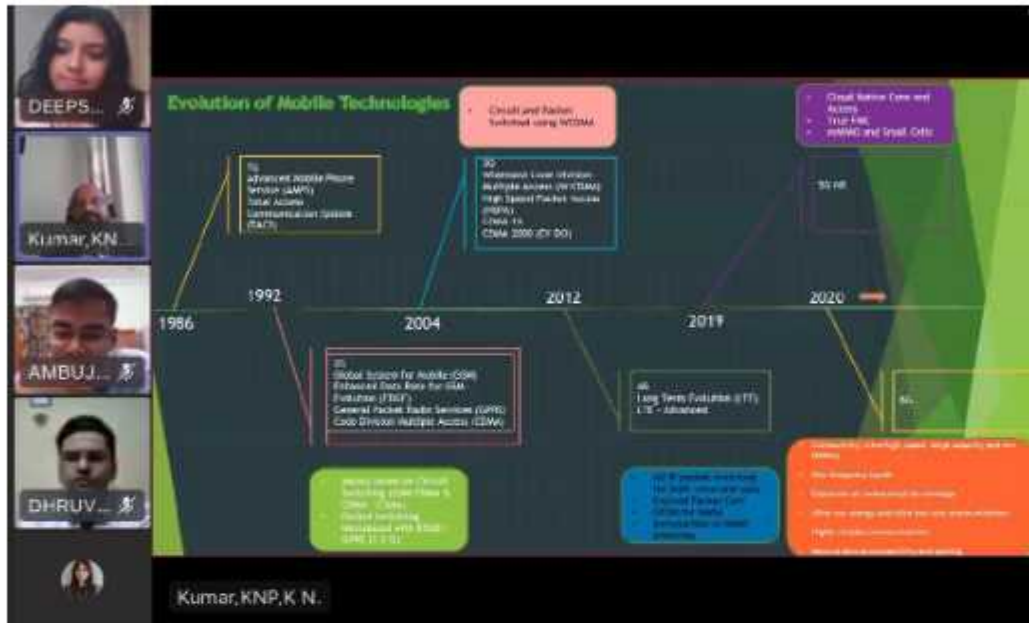

Title : Skill Development in Technology with -How will a 5G network power the Future

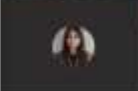

**SIDTM - Symbiosis Institute of Digital and Telecom Management** Pune is thrilled to announce that we recently hosted Mr. Prem Kumar, Head of Technical Delivery Management at **BT**, to mentor the students on the topic 'How will a 5G network power the Future'. In this virtual session, he shared his valuable insights on the evolution of mobile technologies since the 1980s to the introduction of 4G LTE advanced, the importance of 5G, and how they can transform an industry. He also touched upon relevant use cases of 5G and future opportunities with 6G, which helped the students in gaining insights into the ever-evolving telecommunications landscape.
