Event of TEDx was an SITM event under TED talks umbrella.

TEDx -a suite of short, carefully prepared talks, demonstrations and performances that are idea-focused, is an event that presents multiple issues and a diversity of voices from many disciplines. The mammoth popularity of TEDx talks has spawned several smaller, more localized versions of the inspirational lecture series. TEDx SIU Lavale is a major event conducted by entrepreneurship cell of SIDTM (Formerly SITM) featuring an amalgamation of bright ideas developed by individuals with distinct abilities who inspire and strive to inculcate their vision within the society. A conglomeration of creative thoughts, each initiating the next, resulting in a chain reaction of success. This is precisely what we seek to do at TEDx executing this spread of ideas more than generating major crowds. We aim to explore new ideas, stimulating imagination, and encouraging innovation, getting inspiration, and thereby enhancing Entrepreneurial ability with the flair for motivation, vision, spark and creativity.

Dear Prof Madhavi

Thank you for the opportunity to share the Gita with SITM kids. I forget to mention to the students that we have a course on the Gita in Business at SIBM and whether they would like to attend such a course. Would be possible for you to get that feedback from them and Faculty because I got some request for further detailed insight into management lessons from the Gita. It takes a proper 2 to 3 credit course to learn this. I spoke with Shastri sir and he was good with me teaching at SITM if it turns into a course during regular school hours. Thought i should share with you what was on my mind.

Thanks

Rajesh

Dear Madhavi,

Here is what I think will be apt for the seminar. I will take them through a concise presentation of general management and leadership skills from all chapters of the Gita. So they have a taste of the Gita in its entirety as it applies to Business Management and Leadership skills.
