8 SOCIOECONOMIC INCLUSIVENESS - FEED THE NEED

- Venue: - SITM hostel Campus
- Date: - 13th March 2018
- Event Objective: -

A way of extending our hands towards children who don't have the means to buy good clothes, shoes, etc. We do so by collecting the above-mentioned items from all the students of Symbiosis and donate the same to the one in need.

Event Report:

Every year a batch of students pass out of the university, leaving behind lots of unused goods such as books, clothes, shoes, stationery, etc. Feed the need initiative of S.P.A.R.S.H. encourages the students to donate all such products which they wouldn't be using for themselves but could be of great use for someone who is lesser privileged. Students from all colleges are encouraged to contribute such things which are collected and donated to charity organizations which provide for people in need of these basic commodities.

This brings in the "sense of society" among the students, who can feel content that they are valued by someone, somewhere.

Key Learnings: - • Publicity of an event, Mobilizing the resources for collection of useful items.
