

## **Coffee Table Conversation on Gender Neutrality**

Ms. Vaidehi Vaidya, Founder and MD at Women in Sport India; Dr. Divya Rathod, Founder at Silvery Nanos; and Mr. Vivek Nair, the moderator.

The discussion concluded by identifying the gaps and the need for the government to promote female athletes and make new policies to bring in not just women but decision-making women into action. The key takeaway was that gender neutrality is a goal we must meet in all industry- work environments to help create a more vibrant, positive and productive work culture and drive profitability. Attaining it is ambitious, but yes, we are moving in the right direction.
