About the event:

With a legacy of 10 incredible years of ideas worth spreading, **TEDxSIULavale** proudly leaps into its 11th edition with another intriguing theme - **Unsettle** on **February 25th, 2023**.

This year, **TEDxSIULavale** is going **offline** with vibrant new ideas worth spreading shared by inspiring people like you!!

About the theme'23:

Unsettle.

Break the Status quo.

The human mind can be like an impermeable black box. There are times when we are overwhelmed with too many things happening around us, and our mind is unable to fathom them. The result is a desperate grasping for words, overthinking, and at times, thought blaming. This is the tipping point when we must create a space where we don't think out of the box but inherently believe that no box exists. This is just the perfect time to **Unsettle** by creating new hashtags, ideas, thoughts, and notions that can disrupt the settled narrative and break the status quo.
